5. The selection of financial product as set out in sub clause 2.1 is restricted to the South African jurisdiction.

6. General Risk Disclosure

Risk refers to inherent risk of capital loss or fluctuation in valuations over time. The level of risk is determined by the following (non-exhaustive) list of factors – The general state of the macro economy (globally and regionally), market environment, the term of investment, regulatory compliance and system capabilities.

The Financial product listed in sub clause 2.1: Although these financial products are banking products and are regarded as low risk, there is always the risk that something unexpected may threaten the Client's capital Investment. SA Bullion I.S. does not guarantee the capital growth or capital preservation in respect of the financial product as set out above.

ONE OUNCE GOLD BULLION KRUGERRANDS AND RISK DISCLOSURE

Financial instruments usually carry three main types of risk,

CREDIT RISK

Credit risk is the risk that a debtor will not pay or remain solvent. Gold is unique in that it does not carry a credit risk. Gold is no one's liability. There is no risk that a coupon or a redemption payment will not be made as for a bond or that a company will go out of business as for equities and unlike currencies the value of Gold cannot be affected by the economic policies of the issuing country or undermined by inflation in that country.

LIQUIDITY RISK

Liquidity risk is the risk that the asset cannot be sold as a buyer cannot be found. Clients of SA Bullion I.S. have no liquidity risk as Clients' Gold Holdings will be re-purchased from the Client by the South African Reserve Bank when the Client elects to sell his Gold Bullion Krugerrand/s

MARKET RISK

Market risk is the risk that the price will fall due to a change in market conditions. Gold Bullion Krugerrands are subject to market risk as the price is directly determined by the market price of Gold. Many of the downside risks associated with the Gold price are very different to the risks associated with other assets. A factor which enhances Gold's attractiveness is the special property it holds as a portfolio diversifier. Similarly, the specific risks to which bonds and equities are exposed, including health of the public and corporate sectors, are not shared by Gold. One measure of market risk is volatility, which measures the dispersion of returns for a given security or market index. The more volatile an asset, usually the riskier it is.

The Gold price is typically less volatile than other commodity prices. This is because of the depth and liquidity of the Gold market, which is supported by the availability of large above ground stocks of Gold. Because Gold is virtually indestructible, nearly all of the Gold which has ever been mined still exists, much of it in near market forms. This means that sudden excess demand for Gold can usually be satisfied with relative ease. As a result, Gold is generally less volatile than equities as mirrored by stock market indices such as the FTSE 100 or S&P 500. In addition, when Gold becomes more volatile, this tends to be associated with a rallying price. The reverse is true of equities, where rising volatility is an indication of market stress. For these reasons, price volatility for Gold can express different information than high price volatility in equity markets, where it generally signals uncertainty and increased market concerns.

Investor Initials

Although investments are made and administered with the greatest caution, SA Bullion I.S. cannot be responsible for any loss or damage which the Client may suffer, whether direct or indirect, special or consequential, unless the claims are attributable to fraud, dishonesty and negligence by SA Bullion I.S. or its employees in the course and scope of their employment. The Client acknowledges that he/she is aware of the risks inherent in the above mentioned financial products. The Client acknowledges that the realization of such risks may result in financial loss to the Client. The Client shall not have any claim against SA Bullion I.S. or any of its directors or employees in the event that the Client suffers a financial loss.

REGISTRATION OF THE BULLIONGOLD FACILITY

SA Bullion I.S. will register the facility in the name of the Client.

The one ounce Gold Bullion Krugerrands will be purchased in the name of the Client and will be held in title in the Client's name. The Client's Gold Holdings will be stored at the Rand Refinery Limited storage facilities in Germiston, South Africa. The Client's Gold Holdings will be fully insured at all times.

The Client understands and agrees that SA Bullion I.S. may, in order to render an intermediary service to the Client, utilize the service of its own staff or that of another approved FSP.

DELIVERY TO CLIENT

Investors may elect to take physical delivery of their gold bullion Krugerrands subject to a minimum initial investment period of 3 years.

The South African Reserve Bank special dispensation that underpins our business extends to the safe custody of investors' gold bullion Krugerrands being stored and vaulted in the Investors name at the Rand Refinery Limited vaulting facility in South Africa. The dispensation is explicitly granted to enable an economically viable means for holding Gold as an investment asset and not for speculation in secondary markets, or for any other purpose. To prevent potential abuse of this dispensation, physical gold redemption is subject to a minimum initial investment period of 3 years where-after SA Bullion I.S. does not charge a fee in respect of physical gold redemptions.

In the event of a physical gold redemption occurring within the initial 3-year investment period, SA Bullion I.S. reserves the right to charge an early-exit fee. This fee may not exceed the company's maximum fee rate for three years. SA Bullion I.S. will facilitate a courier service to collect, insure and deliver the investor's gold bullion Krugerrands. This will be at the investor's cost and risk. Restrictions may apply to foreign investors who wish to take delivery in foreign jurisdictions. These restrictions may vary from time to time.

REDEMPTIONS

The Client can elect to redeem their Gold Holdings for ZAR currency by electing to sell their Gold Holdings to the South African Reserve Bank. SA Bullion I.S. will facilitate this sale on the Client's behalf. The South African Reserve Bank may apply nominal charges on re-purchase and these charges may be varied from time to time. All non-resident investments, with profit or loss, may be repatriated to source without restriction by South African authorities. SA Bullion I.S. does not levy any charges on cash redemptions. Proceeds of sales are typically received in three business days but are dependent on South African Reserve Bank timing.

FEE STRUCTURE

UPFRONT FEES

Each once-off cash contribution will be recognized as a new investment. SA Bullion I.S. charges a fee of 1.5% (zero VAT) on the new investment. The Client's Financial Advisor or Introducer may regulate a maximum brokerage fee of 3.5%. The Client hereby authorizes SA Bullion I.S. to deduct their upfront fee as well as the brokerage fee from the Client's once-off investment and to transfer the fee amount to the SA Bullion I.S. fee account within 24 hours of receiving each once off payment. The rate agreed between the Client and the Financial Advisor or Introducer will be charged on each new investment for as long as the Client continues to make payments.

ONGOING FEES

SA Bullion I.S. charges an administration fee as detailed in section 10 of this application form. The Client's Financial Advisor or Introducer will receive a percentage of the administration fee charged by SA Bullion I.S. in the form of a fee rebate. All administration fees accrue daily and are levied monthly.

GOLD DEALING COSTS

The South African Reserve Bank, either directly or via its wholly owned minting operation South African Mint Company (Pty) Limited, as well as Rand Refinery Limited, incur costs in refining and manufacture. Associated charges result in the "premium" charged at time of gold sale. SA Bullion clients receive the most favourable wholesale rate applicable to large-volume wholesale business. This premium is 4.0% of the gold value and is directly attributable to Clients at time of purchase of Gold. This premium may vary from time to time.

13 NEEDS ANALYSIS IN RESPECT OF NEDBANK CALL ACCOUNT

The Client acknowledges his/her needs to be as follows

To manage his/her once off cash contributions in a Nedbank Call Account which will deliver a market-related interest rate with liquidity, accessibility and transactional functionality. The primary and only purpose of the Client's Call Bank Account held with Nedbank Corporate Banking is to accumulate sufficient funds to enable SA Bullion I.S. to facilitate the purchase of wholly indivisible units of One Ounce Gold Bullion Krugerrands which will be owned in title by the client as per the authority granted to SA Bullion I.S. detailed in the Client Mandate.

RISK PROFILE

The Nature of the Call Bank Account would appeal to Clients with a low/conservative risk profile.

FAIS CATEGORY OF FINANCIAL PRODUCTS

The call bank account is categorized under the FAIS Legislation in South Africa as deposits as defined in the Banks Act 12 months or less.

PRODUCT SUPPLIER

The call bank account will be held with Nedbank Limited South Africa.

BANKING CHARGES

Nedbank Limited does not charge a fixed monthly fee for the opening and maintenance of the call bank account. The first seven rand and fifty cents of interest earned for each month on the call bank account is paid to Nedbank Limited and is reflected as such on the Clients call account bank statement. If the interest earned is less than seven rand and fifty cents in the respective month then Nedbank does not levy any charges against the Clients call bank account. This ensures that the Clients capital balance earns wholesale rates of interest and is not eroded by the monthly fee charged by Nedbank Limited. This fee is subject to change, Nedbank will inform SA Bullion I.S. of any changes. SA Bullion I.S. will in turn communicate this to the client.

14 FINANCIAL ADVICE IN RESPECT OF NEDBANK CALL ACCOUNT

In compliance with licence category 1.18 of the FAIS Act

It is a legal requirement that you, the investor, are provided with financial advice regarding the cash portion of your investment with SA Bullion Investor Services. This advice may be provided by your financial advisor but where your financial advisor is not licenced to provide such advice, we undertake to provide this advice. This advice is only in respect of the aforementioned cash holdings with SA Bullion Investor Services. We do not undertake to provide financial advice in any other specific category or in terms of your overall financial affairs.

Your cash element with SA Bullion I.S. is held in a call account at Nedbank Limited. As deposits are held on the balance sheet of a bank, there are risks related to the good standing of the bank. Nedbank is one of South Africa's four largest banks and is listed on the Johannesburg Stock Exchange. It is principally regulated by the South African Reserve Bank and it has a major shareholder in the form of Old Mutual. At time of writing Nedbank's credit ratings met all reasonable requirements.

Your cash is held in a call account. A call account is a demand account and therefore entails no fixed-investment periods. Immediate withdrawals are permissible. A liquidity problem is unlikely to present itself unless the bank goes insolvent or it experiences cash withdrawal demands that exceed its supply of cash. It is presently extremely unlikely that Nedbank Limited would go insolvent or experience liquidity problems caused by a run on the bank. In the event of a run on the bank it is highly likely that the central bank would supply liquidity to Nedbank owing to the fact that Nedbank is a substantial component of South Africa's banking system.

Your cash component with SA Bullion is likely to be a small component relative to your gold holdings and you are therefore likely to have relatively little value at risk. Furthermore, it is likely that your investments with SA Bullion I.S. are a relatively small component of your overall holdings, further mitigating your value at risk. Overall, the risks attached to this component of your assets are very small.

The client in instructing SA Bullion I.S. to render the intermediary service and to deposit the client's money with Nedbank, is acting as principal, thereby creating and establishing a banker-customer relationship between the client and Nedbank.
